UARL official position Regarding D0-D1 prefixes

Ukrainian Amateur Radio League (UARL) would like to inform about official position regarding usage of D0-D1 prefixes.

Licensing of ham radio stations in Ukraine is done by The Ukrainian State Centre of Radio Frequencies (UCRF), activities of which are done in accordance with ITU regulations.

Ham activity performed from temporarily occupied territories of Lugansk and Donetsk oblasts is done with the use of D0 and D1 prefixes. UCRF is unable to execute appropriate control in occupied territories and no permits to use D0, D1 prefixes were issues by Ukrainian regulatory bodies. Stations using D0, D1 prefixes are in violation of ITU norms and Ukrainian legislation and are acting illegally.

As such, two-way contacts with such radio stations cannot be credited as contacts with Ukraine.

President UARL
Executive Committee UARL
